

CO2 Fire Extinguishers-28

CO2 Fire Extinguishers-28 are used to extinguish class B (flammable liquids and molten materials) and class C (burning electricity-generating equipment under voltage up to 1000 V) fires, when oxygen is involved in the burning action. The extinguishing agent is carbon dioxide (CO₂). The principle of operation is based on a sharp expansion of the gas volume and the emission of cold.

Temperature range - from -20 ° C to + 50 ° C.
Operation time is 10 years.

We carry out annual maintenance at the customer's enterprise!

Product code: 1815106100

Specifications:

- Volume of shell - 40 l;
- CO₂ content - 28 kg;
- Fire-killing capability - 89B;
- Fire extinguisher full weight, not more than - 135 kg;
- Minimal jet length - 4 m;
- Minimal discharge time - 20 sec;
- Length - 1900 mm;
- Height - 800 mm;
- Width - 500 mm;
- Diameter - 219 mm;
