

🗨️ CO2 Fire Extinguisher-1.4

CO2 Fire Extinguishers-1.4 are utilized for extinguishing class B and class C fires where oxygen is present in the combustion process. The fire extinguishing agent utilized is carbon dioxide (CO2) and the temperature range for usage is between -20°C to +50°C.

These fire extinguishers are specifically designed for extinguishing fires caused by flammable liquids and molten materials (class B), and electrical equipment under voltage up to 1000V (class C).

The CO2 Fire Extinguishers-1.4 work on the principle of rapid gas volume expansion and the emission of cold. These extinguishers are designed to operate for up to 10 years, and we provide annual maintenance services at our customer's location.

Product code: 1815101100

⚙️ Specifications:

- Volume of shell - 2 l;
- CO2 content - 1.4 kg;
- Fire-killing capability - 21B;
- Fire extinguisher full weight, not more than - 6.5 kg;
- Minimal jet length - 2 m;
- Discharge time - from 6 to 11 sec;
- Height - 454 mm;
- Diameter - 108 mm;
