

Product code: 1011101100

Immersion suit

The immersion suit provides good thermal protection combined with high visibility fabric to increase your chance of survival in an emergency. It is made of flame retardant neoprene with good elasticity to fit perfectly.

Key features include leakproof zipper for comfort and minimal water ingress, detachable gloves for easy donning and reinforced anti-slip soles for durability and safety.

The immersion suit must be worn with an approved lifejacket.

Approved according to SOLAS regulations

Design features:

- Strap-attached gloves for easy donning;
- Fully integrated boots with adjustment strap;
- Extended leakproof zipper;
- High visibility in dark water;
