

CO2 Fire Extinguisher-5

CO2 Fire Extinguisher-5 is suitable for use in areas with electrical equipment or flammable liquids, such as server rooms, laboratories, workshops, and petrol stations. It is also commonly used for fighting fires in Class B (flammable liquids) and Class C (burning electricity-generating equipment under voltage up to 1000 V) fires.

Product code: 1815104100

Class B fires involve flammable liquids, such as gasoline, oil, and grease. These fires require a fire extinguisher that can cool the fuel or displace the oxygen to extinguish the fire. CO2 fire extinguishers are an effective because they do NOT leave any residue.

Class C fires involve electrical equipment such as computers, power tools, and other electrical appliances.

Operation time is 10 years.

We carry out annual maintenance at the customer's enterprise!

Specifications:

- Volume of shell - 7 l;
- CO2 content - 5 kg;
- Fire-killing capability - 34B;
- Fire extinguisher full weight, not more than - 17 kg;
- Minimal jet length - 2 m;
- Discharge time - from 9 to 20 sec;
- Height - 789 mm;
- Diameter - 140 mm;
