

 **Adult lifejacket**

Product code: 1011102100

Adult Lifejacket is used in extremely rough weather conditions to rescue swimmer and non-swimmer adults from 43 kgs up to 140 kgs.

It is specially designed to keep mouth and nose above waterline, compared to previous versions. Lifejacket can be used onboard vessels for inland waters as well as on vessels for open ocean.

Filling material of the lifejacket is made of closed cell polyethylene foams with high visible orange colour fabric. Tightness is supported with additional belt.

SOLAS graded(Wheelmark) according to 96/98/EC directive.

Fully in accordance with IMO MSC 81(70) as ammended, MSC 200(80) and MSC 48(66) as ammended as well as 207(81).
