

Open-type fire-fighting equipment stand with a tipping sandbox

Product code: 1820102100

The purpose of the open-type fire-fighting equipment stand with a tipping sandbox is to provide storage for fire-fighting equipment. It consists of a red metal frame with tool mounts and a tilting sand box that has a hinged cover plate. This stand is suitable for enterprises that lack external/internal fire water lines or automatic fire-fighting systems, or those situated more than a hundred meters away from water sources.

The kit typically includes a crowbar, two salvage hooks, two round-pointed shovels, two cone buckets, and a fire blanket.

Proper placement and adequate equipment are critical to ensuring your safety.

Delivery options include:

- With component parts;
- Without component parts;

Specifications:

- Material - metal frame, steel sheet 1.5 / 2 mm;
- The volume of the sand tank - 0.1 m³;
