

## Life Buoy 2.5 kg

Life Buoy M02700 is an essential safety equipment and is designed to keep a person afloat in case of an emergency or accident. It is mandatory equipment on river and sea fleet vessels, small vessels, coastal posts, and ferries of all types and purposes.

It can also serve as important visual aids. It is often brightly colored and features reflective tape, making it easier to spot in the water, especially in low light conditions. Martek Life buoy must be properly secured, easily accessible, and ready for use in case of an emergency.
