

Powder Fire Extinguisher PS2-Y ABC

PS2-Y ABC stored pressure and dry powder formula make it a multi-purpose solution that can be used in a variety of situations. This extinguisher is also designed to operate in temperatures as low as -30°C, making it a suitable choice for colder regions.

It has been certified to meet the standards of the Marine Equipment Directive MED 2014/90/EU and EN3-7.

Powder fire extinguishers are often the preferred choice in industrial and commercial settings due to their multi-purpose capabilities. The dry powder formula works by smothering the flames and interrupting the chemical reaction that is causing the fire. It's worth noting that while powder extinguishers are effective on many types of fires, they may not be the best choice for Class D fires involving flammable metals.

Product code: 1814101100

Specifications:

- Fire ratings: 13A 89B C
- Extinguishing agent: ABC dry powder
- Discharge time : ~ 12 s
- Overall height : 387 mm
- Bottle OD : 108 mm
- Weight: Empty - 0,57 kg / Charged - 2,57 kg
