

Lifejacket 100N

100N Lifejacket is weared by swimmenrs and those people, who can NOT swim. The lifejacket suits for everyday wear on vessels and in sheltered waters. It is made of fabric of high visible orange colour. Closed cell polyethylene foams ensure good buoyancy properties.

The lifejacket is provided with 100 cm² of solas type retro-reflective tape, whistle and straps, which are fastened with buckle. There is also a place for a lifejacket light.

It is designed in accordance to the European standards for 100N life jackets, ISO 12402-4.
