

Single-pivot gravity davit Norsafe E-65

Product code: 1510101100

The VIKING Norsafe E-65 Single Pivot Gravity Davit system is specifically designed for safe and efficient launch and retrieval of a Norsafe Conventional Lifeboat.

The davit is intended for lifeboats placed onboard vessels, where swing out davit arms offer the best solution, enabling the lifeboat to be launched in the minimum time. The lifeboat is normally boarded in the stowed position.

The davit system is designed for long time operation in tough marine environment and is manufactured to fulfill latest SOLAS/IMO requirements.

The system will allow:

- Launch of the lifeboat in maximum load condition;
- Gravity lowering of the loaded lifeboat independent of external power supply;
- Retrieval of lifeboat with a crew of three persons using electric power;
- Retrieval of the lifeboat by manual hand-cranking;
