

Basket stretcher

The Basket Stretcher is a reliable tool designed to rapidly carry out first aid operations for injured.

Description

It features adjustable feet securing mechanism, safety belts, a mattress, and a set of foldable floating devices that can be conveniently folded into the stretcher when not in use. The Basket is made of materials free from toxic or polluting substances and ensures high resistance against wear and corrosion.

Where to use

It is designed to cater to a wide range of emergency situations. Equipped with special sling equipment, the stretcher is ideal for lifting and transportation by helicopter. It is also specifically designed to be securely fastened inside the helicopter.

Caution!

When transporting patients using this stretcher, lock the fender locking device and fasten the safety belt for maximum safety. During general operation, take care not to damage the surface of the stretcher.

Maintenance

Regularly clean the stretcher. Frequently check for any loose parts.

Storage and Transportation

Store this product in a damp-proof and non-corrosive environment. This product can be transported using commonly available vehicles.

Technical characteristics:

Basket size: (L x W x H): 216 x 61 x 19cm;

Packing size: 223 x 66 x 24 cm;

Weight: 20kg;

Load bearing: less than 159kg;

Product code: 1013105100
